REGINA.
From the Leader, Feb. 16.
In a claim filed with the recent accident of the Appelle steamer, when the tender engine and several cars were swamped by the engineer and fireman then in charge of the engine, having been crushed up, saved before Sept. Deane of the N. W. M. Police on Monday 2nd.

The engineer, Lithgow, was charged with being intoxicated whilst in charge of the engine. After the examination of a number of witnesses, the Court committed him for trial.
The fireman, Galloway, was charged with having drunk intoxicating liquor whilst in the course of his employment in the C. P. R., contrary to the law, regulation of the Company, thereby exposing the property of the Company to loss greater than that to which it would otherwise have been exposed. He was also committed for trial.

Mr. C. N. Howell, Winnipeg, and Mr. Prescott Sharp, Regina, appeared for the prosecution in both cases, and Mr. T. C. Galloway, Regina, for the defence.

We understand that it is the intention of the C. P. R. to prosecute vigorously, on the part of its employees, who shall be found contravening the regulations of the Company prohibiting the use of intoxicants, both in the interests of the public using the railroad and of their own property. The amount of loss consequent on the recent accident at the Appelle station is estimated at \$500.

BATTLEFORD.

From the Herald, Feb. 20.
An Indian on one of the reserves near here claims that he can cure glandular disease, and says he will do it for five dollars a case—no cure, no pay. If he really has the secret it would be worth a good deal to owners of horses to get it out of him.

Just as we were going to press last night news arrived from Fort Pitt to the effect that a young man engaged on Foxlock & Langley's mill, Frog Lake, had been accidentally killed. According to the information the men were putting the turbine wheel on the mill, and the pit prepared for its reception when the earth gave way, and the whole arrangement fell, killing one of the men engaged in the work. We did not learn the name of the deceased.

CALGARY.

From the Star-Writer, Feb. 15.
We have been shown some specimens of hydraulic cement which have been prepared by Messrs. M. C. McKee, Debris & Co., which appear to be of an excellent quality; it is said they will rank equal, both in the tensile strain and crushing pressure, with any of the best English brands. The parties named explored the mountains some time ago and at the time were not fortunate to find what was exactly required, but since that time they have made further discoveries, and claim that they will shortly be in a position to develop and carry on the enterprise.

Some specimens have been exposed to both frost and water during the winter without the least injurious effect.

Should this cement prove all that is claimed for it, undoubtedly its manufacture here will be a great benefit to Calgary.

From the board of trade returns this kind of material, to the value of from three to four million dollars, is annually exported to China and Japan. With an abundant supply of the raw material and a short route to China it is likely to be an important industry.

We understand it will shortly be put to practical use; it will then be a much easier matter to determine its value as an industry to the town and district.

INDIAN HEAD.

From the Appelle Valder, Feb. 15.
Indian Head Municipality is now a reality, and anybody would have thought so if they had seen all the wire pulling and scheming of the candidates to catch the different votes at the election last Wednesday, February 14th. There were fourteen nominations, and as we only wanted seven councillors, the fight was hot. Everything went on quietly, and at 5 o'clock Returning Officer Ferguson declared Messrs. Robertson, Hamilton, Holey, Sheppard, Russell, Horland and Partridge, councillors for 1885.

Lieut. Gordon's Report to the Government

OTTAWA, Feb. 19.—This report Lieut. Gordon says: "The ice has been supposed to be the most formidable barrier to the navigation of the straits, but that terror disappears to a great extent on investigation. There are three classes of ice, having a separate origin—icebergs from glaciers in Fox Channel, heavy Arctic field ice, and ordinary field ice. No ice was met in the straits, and the ice is largest seen in the straits in August and September, would form no greater barrier to navigation than in the straits of Belle Isle. There was no difficulty in passing through the ordinary field ice and none was seen on the return voyage. The heavy Arctic ice was more formidable. There was some ice over forty feet thick, and the general average was fifteen feet. The question of the origin of this ice and whether it was locally met with is important as the steamer was helpless in it. Lieut. Gordon thinks much of this ice is the accumulation of several years, and says it is reasonable to conclude from the reports of the Hudson's Bay ships that only occasionally heavy ice appears in the straits. The extreme duration of navigation at Churchill Harbor is from June 15th to November 15th. Ten feet of thickness of ice forms in Fox Channel. As regards the character of the weather for August and September as affecting the navigation of Hudson's straits, it compares well with Belle Isle. There were only three gales at the fort, one against eleven at the latter and half the amount of fog. Hudson's Bay has been proved navigable early in June. The fisheries of the bay are most profitable and regard must be laid to them in negotiations for reciprocity. It is profitable and also desirable that the expedition should leave Halifax this year on May 15th to reach the straits on June 1st and Churchill at the opening of navigation. The general tenor of the report is very favorable.

THE LONDON RIOT.

Three Thousand Unemployed Workmen in Procession.

LONDON, Feb. 16.—Great excitement was caused today by the riotous conduct of a number of unemployed workmen. Three thousand of them, paraded the streets with banners bearing mottoes stating their grievances. They proceeded, marched to a building occupied by a local government board and a committee from the ranks entered the office and demanded relief for the people they represented. They wanted immediate work on the construction of Imperial Works. The board repulsed the committee and the crowd became a howling mob. The police attempted to interfere, but were soon overpowered. The paraders then marched to Downing street, and stopped in front of the residence of Mr. Gladstone. They levelled invectives against the Government. A Cabinet Council was being held at the time, and the mob attempted to force its way into the room where the council was sitting. The police at this point receiving reinforcement, sent them back to their quarters. The intruders in the mob then tried to storm the Admiralty office, but were driven off and finally dispersed by the police.

BIBLE COMPETITION.

The publisher of the popular humorous work entitled "Our Joshua as a Reporter," anxious to dispose of the limited number of copies on hand has offered a special inducement. The person sending the first correct answer to the following Bible question before the 15th Jan. 1885, will receive TEN DOLLARS in gold. The persons sending the next five correct answers, one dollar each, and the five persons sending the last correct answers one dollar each in all eleven rewards.

Each person competing must enclose twenty-five cents with their answer and will receive by return mail a copy of "Our Joshua as a Reporter," a humorous work of 100 pages of which the Province and United States press have spoken most favorably. Name this paper.

QUESTIONS.—Multiply the number of elders that John saw in his revelation by the number of years Satan was bound, divide by the number of gates in the New Jerusalem, add number of shekels of silver taken by Achan from Jericho, subtract the number of false prophets killed on Mount Carmel, divide by the number of Moses' sons and subtract His age at his death.

The correct answer and names of successful competitors will be published in the New Brunswick Reporter. A copy of which will be forwarded. Address—HERMAN H. FITTS, Manager—N. B. Reporter, Fredericton, N. B. P. O. Box 209.

Here We are Again.

Owing to the change that is to take place in our business on or about the 20th inst., we require all parties who are indebted to us to please call and settle their accounts without further notice.

N. B.—We are selling the balance of our stock at reduced prices.

Q. ALEXANDRIA, Feb. 25.

There is grave prospect of war between Afghanistan and Russia in the event of trouble, England will aid Afghanistan. If the situation does not improve, the Guards are intended for Suakin will be ordered to Bombay.

At a dynamite congress held in Paris, at which delegates from nearly all European nations were present, it was decided that London and other English towns be blown up.

The Queen is improving in health and spirits.
Barton and Cunningham, the dynamiters have been remanded.

London, Feb. 24.—The Scholes and Mitchell glove contest came off in the Adelaide street rink last evening. The Lieutenant Governor and a large crowd were present. Mitchell won.

There is a serious cutting of emigrant rates on all the western roads.

London, Feb. 26.—Some correspondence between Gen Gordon and the Home Government, which took place last fall, is published. It has created the most intense interest throughout and England, and will materially hasten either the resignation or death of Gordon. Here is an extract, dated 18th September: "How many times have I written, asking for reinforcements, but my letters have never been answered. The means of my gallant men are weary with this long waiting for assistance, and failing to receive any words of encouragement which would lead them to expect help shortly. While you can, drink and I trust of health, we are always watching night and day the movements of the Mahdi, and the cause of the reverse of victory for you."

London newspapers are crowded with comments on Gladstone's speech on the reopening of Parliament, and none but the most partisan admirers of the Premier have a word of praise.

The Pall Mall Gazette, always an independent supporter of the Government, declares sadly that Gladstone's once glorious sun is fast setting behind black and lurid clouds.

The Grenadier, Coldstream and Horse Guards have all left London since Gladstone's departure was marked by the most pathetic incidents at the railway.

Gen. Stewart, who was wounded in an engagement with the rebels near Gakadu, has since died from the effects of his wounds.

Walsley telegraphs that he will be buried at the entrance of the valley leading to Gakadu. He will receive a soldier's funeral. No higher officer or more brilliant leader ever wore a uniform.
